## Instructions to control Heater and Circulation Pump in Island Escape (Non Balboa Models)

1. In order to heat the hot tub, you must turn the heater on first.

2. To turn on the circulation pump. Hit the heater button once.

3. Notice the small icon to the right of the animated lady on the control panel LCD. That means the circulation pump is on.

4. Now hit the heater button a second time to turn on the heater. A second small icon to the left of the animated lady now is shown on the LCD screen. This means the heater is on now also.

5. (Finger shown pointing at the small icon meaning the heater is on).
